DAY 5	– Serengeti Maswa	– Game Drive,
DAY 6	– Dep to Arusha	– Transfer to Nairobi for flight home

“I was so happy, I nearly caught the sky with laughing & crying”

Munyamadzi

The Southern Serengeti is dominated by vast and apparently infinite short grass plains, directly south are the Savannah woodlands of the Maswa Game Reserve. We have an **exclusive use conservation area of 250,000 acres** with access to over 1,500,000 more; this is a classic walking area. Game trails weave their way around this area and traditional migratory routes are well trodden at this time of year by vast herds of wildebeest. To the south is Lake Eyasi home of the Hadzabe bushman. Cousins of the Kalahari bushmen with centuries of bush craft at their fingers.

SERIAN'S SERENGETI MASWA

For six days you will find yourself immersed in the rhythm of the African plains. Most travellers rush past these absorbing natural sights and press on to the next in line scratching the surface and never establishing a more intimate connection with what goes on. Spending time devoted to observation has always been the root understanding of human philosophy; taking a while longer and retreating a short distance allows us to do the same with nature. There are no important appointments, no must make deadlines, no formal objectives; your watch can be left at home!

Based from “**Serian’s Serengeti Maswa**” a handsome traditional bush camp in the Maswa Game Reserve you can enjoy game drives through Maswa’s Savannah which are dominated by great kopjes; islands of life and natural viewing platforms. Glassing the horizon you can spot herds of wildebeest and zebra, elephant and buffalo. A stones throw away in the Ngorongoro Conservation Area and Serengeti National Park the air sparkles, brilliantly clear from the sporadic storms. Sweeping dramatically across the plains they herald the advent of the birthing season, vast herds of wildebeest congregate on the southern Serengeti plains.

- Exclusive Use of 250,000 acres
- Access to one and a half million more
- Exclusive use of vehicle
- Genuine night game drives
- Unrivalled walking opportunities

SERIAN'S SERENGETI MASWA

The grass plains are at their best between mid December and late May when this whole area comes alive with millions of wildebeest searching for phosphorous-rich grasses. You can drive for much of the day hardly seeing another human, at times almost wading through vast concentrations of plains games.

Sitting silently, next to water pans way out in the plains, with patience a very likely amphitheatre for some sort of predator action to play out. Amazing flowers, insects & birdlife also vie for your attention along with the active predators in this wondrous time.

SERIAN'S SERENGETI MASWA

The experience at Serian is focused on viewing wildlife, in particular, the big five, Cape Buffalo, Lion, Leopard, Elephant and Rhino. Each day will be new and exciting. Meals in camp will be interspersed with walks, game drives, hikes, bikes, picnics, evening sundowners and moonlit dinners. There are no schedules to be met and you are free to make your own timetable on a daily basis.

“My stay with you and your team has been truly wonderful! I really felt the power of nature, the authenticity of your offer, the internal peace, a stay at your mobile camp can generate within an urban, always stressed executive. I felt absolutely pampered, not only by the friendliness of Kenyan people, but also by the luxury of your camp and by feeling part of a nature documentary with lions, zebras and buffalos. I think right now I know about the sixth sense and about another world that I was delighted to experience.” Katrina Adjmar

SERIAN' S SERENGETI MASWA
